

Since 1949, A Stone For Every Purpose!

Schwartz Stone provides natural stone with four distinct colors: Cherry Blend, Chestnut, Southern Pecan, and Smokey MT Blue. They are quarried from the Hartshorne formation in the Ozark Mountains of Arkansas.

The **Cherry Blend** has a variety of colors.  
Color range: (Multi blend) Reds, rust, pinks, buff, white, black.

The **Chestnut** has natural buff tones.  
Color range: (Buff Tones) Tan, light and dark browns.

The **Smokey MT Blue** is a blue grey stone with small areas of rusty brown.  
Color range: Blue grey with light patches of rust brown.

The **Southern Pecan** has the darker natural buff tones.  
Color range: Dark to light brown, blacks, and some deep reddish browns.

Along with the quarried stone we also have **Fieldstone**.  
Fieldstone sometimes referred to as Moss Stone is a surface stone from fields and mountains of the countryside.

All three stone types are sandstone and come in a variety of cuts and sizes.

- 4" Full Dimensional stone**
- Thin Veneer**
- Tumbled Stone**
- Rubble: Straight Edge and Irregular**
- 1/2", 1", 2" Flagstone**
